

Date/Time	Incident Address	Incident Type	Apparatus List	Incident Primary Narrative
1/1/2024 12:02	600 Block W. GATES PASS	356 - High-angle rescue	BC331, EN335, PM001, PM334, BC001, EN338, LD001, PM333, LD004, PH001, PM338, SO331, SQ338, EN004	BC331 was at Station 335 when EN335 and PM331 were dispatched for an MVA. After reading the CAD notes BC331 added to the call. While responding more information came in and BC331 started a TRT full assignment. U/A EN335 gave an IRR and BC331 took Gates Pass Command. Command canceled PM334, PM333 and PM338. Command did a face-to-face with the Captain from DHFD and later with BC415. EN335 reported one delayed pt. BC1 was assigned Rescue Group and was assigned LT4 and EN4. SO331 was assigned Safety. The patient was extricated and packaged to be hauled up to the road. Pt. care was handled by DHFD personnel. Command was terminated and BC331 RTS.
1/2/2024 17:39	9000 Block N. BROSS	121 - Fire in mobile home used as fixed residence	BC331, BC332, EN334, EN338, EN339, EN341, PM334, SO331, TN332, AP341, FI331, FI381, PM338, SR333, AP379	Units responded to MH fire reported by a neighbor that saw black smoke coming from the residence and kicked the door open. When EN334 arrived they had moderate smoke coming from the front door. EN334 made their own water supply. EN334 reported low visibility and moderate heat upon entry. EN334 quickly extinguished a kitchen fire that included cabinets. EN338 was assigned to perform a primary search, one dog and one cat were located. Fire was overhauled and turned over to the fire investigators. No injuries reported.

1/3/2024 3:53	8000 Block W. ROBINSON	137 - Camper, travel trailer, 5th wheel, or tent trailer fire - no motor (with motor use 136)	BC331, EN333, EN334, PM333, TN332, BC332, EN336, EN341, SO331, EN338, PM334, FI381, SR333, AP379, FI331	<p>EN338 responded emergency traffic with full alarm for a reported mobile home fire. In the area EN341 reports best access to the south where EN338 was passing. EN338 made access along the dirt road to the property address and found a fenced storage yard to the property with multiple RV's and debris on fire. EN338 sized up the area with best access directions and Defensive fire conditions, pulling a line for fire control and exposure protection taking Robinson Command.</p> <p>BC332 arrived on scene and command transferred. EN338 performed a 360 identifying secondary access to the West and no additional exposure concerns. Second bumper line pulled from EN338 to assist with fire control to an RV. EN334 made access from the West and pulled an additional line for fire control. EN341 dumped their tank to EN338 and cleared the scene. EN336 supplied EN334 until arrival of TN332.</p> <p>Fire under control and crews continued to overhaul until loss stopped. Primary search on the RV was clear with half the RV burnt/exposed to the exterior. Overhaul completed and units returned in service as they became available.</p>

1/12/2024 22:15	2000 Block W. INA	113 - Cooking fire, confined to container & inside structure (for homeless camp fire use 5612, for rec fire use 631, for grill fire use 1621)	BC331, BC380, EC377, EN330, EN333, EN380, EN381, LD004, LD331, PM330, PM333, SO331, TN332	<p>EN333 responded emergency traffic with other units for an apartment fire. U/A found a medium sized, three-story apartment complex with nothing showing. EN333 assumed command and began investigating.</p> <p>EN333 could hear alarms sounding in a second floor apartment and could smell smoke. The door to the apartment was locked with no answer from within. EN333 utilized the irons to force entry into the apartment. The apartment was charged with smoke. Negative active fire was located. EN333 obtained a primary all clear and then located a fire contained inside the oven. EN333 turned the oven off, extinguished the fire with a PW can and removed the tray of burnt food outside of the apartment. EN333 cancelled the balance of the first alarm assignment.</p> <p>EN333 then opened the windows and rear porch sliding glass door and began ventilating the apartment with the aid of a PPV fan. A gas meter was reading CO levels of 20ppm. EN333 continued to ventilate the apartment until CO levels reached 0. BC331 made contact with the building RP in order to initiate repairs to the affected apartment.</p> <p>EN333 met with the resident who stated that she thought she had turned the oven off prior to leaving, however, she actually set the oven to the broil setting. The resident was advised of the actions taken by suppression personnel and that building maintenance had been notified. EN333 cleared the scene and returned to service.</p>

1/14/2024 1:33	4000 Block W. SNOW LEOPARD	1111 - Single story House fire (for mobile home use 121)	EN334, EN338, EN339, EN379, PM338, SO331, TN341, BC332, BC380, FI331, FI381	<p>EN338 responded emergency traffic with full alarm for reported house fire. In the notes, stating a fire started in the garage and all occupants had evacuated.</p> <p>U/A found a small one story house with the garage door wide open and a light haze of smoke from smoldering debris inside the garage, no working fire conditions. EN338 and PM338 could handle and the balance cancelled.</p> <p>EN338 pulled a booster line and hand tools to finish extinguishment on the debris and checked for extension in the garage and to the house. No signs of extension, only smoke to the attic space and home.</p> <p>A fan was set up at the front door the provided positive pressure ventilation until the smoke was cleared.</p> <p>Resident located and gained access to the electrical panel where it was noted only one 15amp breaker labeled "general or general lighting" was tripped.</p> <p>Resident stated they were inside and noticed they lost power to the light in the living room, Arizona room, and smelled smoke. Then the fire was discovered in the garage prompting the call to 911. Resident had opened the garage door and began extinguishment PTA.</p> <p>No injuries reported and he stated the items that burned were mostly christmas decorations, an old TV, and some misc. items from their recent move. He also stated there were no items plugged into a power source in the stored boxes and no signs of a heat source located.</p> <p>Scene turned over to FI331 and EN338 returned in service.</p>

1/21/2024 10:40	7000 W. PICTURE ROCKS	3213 - Engine and Transport Response/Resulting in ALS transport	EN334, PM334, BC331, BC332, LD331, PH001, PM338, SO331, SQ338	<p>EN334 responded code 3 to dispatched address for report of an MVA.</p> <p>Upon arrival found a passenger sedan on its side just off the roadway. Vehicle was unstable with bystanders holding tension using a connected tow strap. EN334 requested TRT Team response and assumed Picture rocks command.</p> <p>EN334 added additional support strap to rear of vehicle and tied off the front end of the vehicle to EN334. Parastrut was placed for added stability. EN334 medic made entry into the vehicle for PT treatment (see EMS report). Tools were staged for extrication and bumper line was pulled and charged.</p> <p>EN334 removed both driver side doors and B-post using cutters and spreaders. With assistance from SQ338 crew, PT was removed via spine board and placed on the gurney for transport. EN334 cleared the scene and returned to service.</p>
1/23/2024 8:18	4000 N. CAMPBELL	551 - Assist police or other governmental agency	BC001, LD331, BC331	<p>BC331 and LD331 responded to a request to assist TFD with an extrication of a body from the wash. LD331 was used to lift the patient in a stokes basket and BC331 was assigned safety. The body was successfully extricated and turned over to TPD. Units returned to service.</p>
